

TLQ Standard

FLEET SIZE 60 | LENGTH 6.3 M | BREADTH 3.2 M | HEIGHT 2.9 M | ACCOMMODATES 4 OR 2 PEOPLE

Temporary Living Quarters built to maximise efficiency & comfort

The Seafox Standard TLQ answers the need for modern, flexible, cost efficient offshore accommodation.

Built to comply with North Sea regulations, the TLQ Standard fleet is suitable for worldwide use, including extreme environments and for any sector of the offshore industry or on board vessels.

Classed by Lloyd's Register, the TLQ Standard is a reliable, proven concept that has been deployed in some of the most hostile environments for many years. The TLQ Standard is designed for flexibility. At 6.3 m in length, they have a relatively small footprint making them cost efficient and they weigh only 8 MT. However, there is ample space for four occupants in two cabins, each with a bunk bed. To give that 'home away from home' feeling the units are equipped with all the modern day comforts, with each occupant having a (optional) wall-mounted TV and access to the Internet. In addition to accommodation units, Seafox can supply offices, recreation units, as well as laundry/washing/changing rooms.

TLQ Standard

Temporary Living Quarters built to maximise efficiency & comfort
